

NOTES/NEWS

JANUARY 2017

NEW PRODUCT DEVELOPMENT:

Now is a great time to involve SFR in new developments for 2017. Contact Paul Borowick, Sales Manager, (pborowick@sfrindustries.com) for details on tooling charges for 1st quarter 2017.

TRADE SHOW:

SFR will be returning as exhibitor to Global Shop 2017, the largest annual visual merchandising trade show on March 28-30 at Mandalay Bay in Las Vegas. Our booth is #3128 and we'd like to invite any of our customers, especially POP and retail, to stop and visit with us.

STOCK OPTIONS:

SFR offers stock and draw programs for high volume requirements, as well as blanket orders with multiple release options to allow for best tiered pricing and assist with JIT manufacturing.

BUILDING PROJECT:

The management team took a few minutes to assist with the ground-breaking for our new shipping/warehouse facility, as pictured to the right. Work is starting on the inside and we anticipate readiness by mid-February.

TOOLING TIPS:

Show us your part/design and we can help make it extrusion friendly! We'll ask a lot of questions regarding end use, etc. and, sometimes, suggest changes to help make your design both economical and successful. Communication is a key factor!

NEW WAREHOUSE & SHIPPING FACILITY IN PROGRESS

The SFR Team Wishes You a Happy and Successful New Year!
